PROJECTS

- **MindSnap: Hack4Bengal 4.0** (<https://github.com/Kaniska1/MindSnap>)

MindSnap turns PDFs, YouTube videos, or text into AI-generated story-style flashcards and gamified quizzes, rewarding users with ETH and NFTs for focused learning. It's microlearning meets storytelling, powered by Web3.

- **Coordina: Smart India Hackathon 2024** (<https://coordina-murex.vercel.app>)

Coordina is a smart collaboration platform that streamlines inter-departmental coordination in Indian urban governance to prevent delays and resource waste. We were selected for the finals of the Smart India Hackathon 2024 for this project.

- **Valecta: StatusCode 2** (<https://github.com/Kaniska1/Valecta-StatusCode2>)

Valecta is an AI-powered hiring platform that streamlines recruitment by validating resumes, ensuring transparency, and conducting adaptive AI-driven interviews in a candidate-friendly environment. We built this in the finals of StatusCode 2 Hackathon, organised by IIIT Kalyani.
